**DOLLAR VALUE OF U. S. FARM REAL ESTATE CONTINUES CLIMB**

Farm real estate values in Virginia rose 4 per cent in the year ending November 1956, according to a report on current developments in the farm real estate market just released by the U. S. Department of Agriculture.

This is right in line with the national increase of 4 per cent, which brought average U. S. farm land values to a new record high — 43 per cent above the 1947-49 level.

Decreases in farm land values during 1956 were confined to areas severely affected by drouth, according to the report. Colorado showed the largest drop from a year earlier—5 per cent. Nevada farm values were down 4 per cent, and in Wyoming and Kansas values fell 2 per cent. But price of farm land in Oklahoma and Texas rose 4 per cent and 5 per cent, respectively, despite drouth conditions there.

The supply of farm land for sale continued at the low level of recent years. The most active buyers were farmers seeking additional land to enlarge their present operations.

**OWL TURNS IN ALARM**

Newark, N. J.- An owl which somehow got into the ladies' room at the Eberhard Faber Rubber Company, recently touched off a burglar alarm by its insistent pecking at the window. Radio patrolmen finally trapped the brown-and-white bird, which had a wing span of 35 inches.

**KNOW THE WEATHER**

By E. H. Sims

What is Saint Elmo's fire?

Sailors and pilots probably know the answer, for they have seen this strange weather phenomenon first-hand but most of us have never observed this eerie electrical event.

Saint Elmo's fire is an electrical discharge, which usually takes place on a plane or boat, but which has been reported to have occurred in swamps, and on land, too.

The charge is built up by fog or cloud containing positive electricity and, from the atmosphere this positive buildup accumulates in the aircraft or boat, or maybe even on a tall, dead tree in a forest or swamp.

When negative clouds or air passes over, or is entered—if one is moving—the positive charge will discharge with a flash. And before the discharge, light may dance along the windshield of an aircraft, or on the propeller or the wings. It may be yellow, orange, or blue, and creates a disturbing sight, but it is not dangerous.

In the old days, when this strange electrical light was not understood, it often struck terror into the hearts of seamen, since it occurs infrequently and appears to be anomnious warning of fire or disaster.

**In FASHION now**
The teen-ager is very fashion-conscious. At this tender age it is important for growing girls to have the right kind of clothes.
This does not mean expensive clothes or clothes that are correct in the eyes of their parents. It means clothes like those the rest of the "crowd" wears.
Fortunately, designers have begun thinking about our teen-agers and consequently their clothes are a far cry from sloppy sweaters and the dirty saddle shoes that were a must some years ago.
The big favorite for school wear remains the sweater and skirt, but they are becoming neat and stylish and designed to look good.
The choice of evening dresses and "dress-up" clothes is varied. The main fight most mothers have is to keep their daughters from wearing clothes too old for them.

# The Stars of Baby Week are Tomorrow's Citizens!

**Many former residents who return to Appomattox after the absence of a few years, marvel at how the Town has grown. They see the new homes, new stores and businesses and know that somebody has been doing a lot of work and there must be a solid econmy making this growth possible.**

**But the same thing is happening pretty much all over the nation. We live in era of rapid expansion of business and fabulous home-building.**

**One thing that makes for a solid foundation under the growth of a community is the willingness of its citizens to favor home-town business with trade. Every dollar that stays at home where it is earned, does service in the upbuilding of the life of the community. Community organizations, churches and schools, all depend upon the amount of money that is available for their support, to a large measure. There are other factors, but by and large you build a solid local economy by supporting local enterprise.**

**Appomattox is well aware of this fact, and local business wants your trade. And to merit your trade, local business has to be on the job to give you service and meet competition. The businesses bringing this message to you seek to merit your trade. We are your friends. We try to understand your problems and needs. We want Appomattox to be a complete town, so you will not have to look elsewhere for your needs. We try to win regular customers, not just make sales. So, talk over your problems with us. Let us show you how it is to your advantage to *try Appomattox First!***

**The more volume of business that is done in Appomattox the more secure will be the economy of the community, the safer the job opportunities offered, and the stronger will be our contribution to the national welfare. We appreciate the vital role you play in making Appomattox "a growing town."**

**The citizens of tomorrow will inherit a better community if we bear in mind that today we are building the kind of community in which they will live.**

**Let's Build Our Town For Our Own Prosperity and For the Security of the Citizens of Tomorrow.**
